QUALITY POLICY

Gierre srl is continually seeking improvement, constantly analyzing the context and stakeholder needs, and assessing risks and opportunities, with the aim of achieving planned growth over time.

1. Gierre srl, aware of its responsibility for the type of goods produced and marketed, implements a quality and safety policy aimed at meeting and, where possible, exceeding the expectations of customers and stakeholders.
2. Gierre srl works to ensure the full compliance of the supplied products with regulatory safety requirements.
3. The employee is the Company's most important investment. They are provided with dedicated training and professional development opportunities, which, combined with their commitment, will lead to greater personal satisfaction, a characteristic of belonging to Gierre.
4. The supplier is considered an important link; Gierre operates transparently and with full collaboration to enable and achieve consistent, mutual growth over time.
5. Gierre srl is committed to integrating sustainability into its processes, promoting the efficient use of resources and reducing waste. The company promotes responsible choice of materials and suppliers, in compliance with applicable regulations. This commitment supports the quality, safety, and durability of its products, contributing to continuous improvement and environmental protection.

Management is committed to updating its strategic plans, considering QUALITY as a key tool for achieving maximum internal efficiency and external effectiveness. It is also committed to defining and maintaining updated indicators and related objectives for the various processes it carries out.
